Green Life Print Directions

- We printed all the cards (not the money) so they are ¼ standard (8 ½ x 11”) sheet of paper size.
- This makes them large enough to keep track of and read easily, but not so large as to waste paper by printing each on its own sheet.
- To do this, we set the printer at 4 pages per sheet, double-sided.
  - This makes our printer print four cards per sheet, with the card’s logo on the reverse side of each card.
  - It is also why the cards are set up with four pages of writing followed by four pages of logos.
- These directions may not work for your printer; you’ll have to work with your printer’s capabilities and settings
  - The money is in sheets of 10 bills per page. Just print the page, nothing special.
  - You’ll need
    - 30 sheets for the $50s,
    - 40 sheets for the $100s,
    - 30 sheets for the $500s, and
    - 30 sheets for the $1000s.
  - We recommend not printing them with frames because the frames don’t always line up properly and the product can come out looking weird and/or sloppy.
