Green Scattergories Instructions

1. Pass out pieces of paper and writing utensils to students.

2. The leader reads a category and starts the timer (1 minute per question)

3. Each player writes down as many answers as they can.

4. Each player reads their answers aloud. The other players cross off any duplicated answers on their own list. Answers given on the cards are not exhaustive; the leader should use their own judgment as to whether an answer is valid.

5. Players receive 1 point for each valid, unduplicated answer. For some categories, there are a finite number of answers, so give points to everyone who gets those, regardless of duplication.

6. Repeat 2-5 for each category.

7. The player with the most points wins.

Hint: The leader should read through categories prior to playing and remove any that may be too difficult for the age level. Create new categories on the spot, if necessary.

Hint: If the cards are laminated, the leader could check off answers with a dry erase marker as they are given.
