Weatherization Game Print and Assembly Directions

- Print the Q & A cards so they are four to a page (see Green Life Directions for Printing for printer settings).
  - This will make them ¼ size so that the Cover Answer cards will cover the answer.
- The Cover Answer cards require nothing special to print. Cut them out and tape them on the Q & A cards so that they cover the answer, but not the category and point value. Only tape the top, that way they flip up to reveal the answer.
